

# Just Like a King

Seasick Steve

Just like a king

When you call out my name  
You make me feel just like a king  
And when we play love's game  
You let me know my bird still can sing

When you howl out my name you make me feel just like a king

I'm a price fighter baby  
When i step inside your ring  
When you knock me out  
You make me feel just like a king

When you howl out my name i feel i can do almost anything

She makes me feel just like a king

She makes me feel just like a king  
She let me know my bird can sing  
She makes me feel just like a king  
She let me know my bird can sing  
She makes me feel just like a king  
She let me know my bird can sing  
She makes me feel just like a king  
She let me know my bird can sing

When she howls out my name she makes me feel just like a king

When we're out on the town  
Everybody's looking at my girl  
She only got eyes for me  
Make me feel like a king of the world

When she howls out my name she makes me feel just like a king

Make me feel just like a king  
Make me feel just like a king

A...a...a king [x3]

...just like a king
