

# Over You

Seasick Steve

It's all over now, baby  
Yes, I'm done done done done done  
My heart's grown cold now, baby  
Cold like this frozen ol' ground

I'm over you  
I'm over you

You might raise a spirit form the grave  
But I'm gonna tell ya  
There's nothin' here left to save  
And all them autumn leaves  
Never go back on them trees

I'm over you  
I'm over you  
I'm over you  
I'm over you

All the king's horses  
And all the king's men  
Can't put a broken love  
Back together again

I'm over you  
I'm over you  
I'm over you  
I'm over you

You might raise a spirit form the grave  
But I'm gonna tell ya  
There's nothin' here left to save  
And all them autumn leaves  
Never go back on them trees
