

# Party

Seasick Steve

When I'm alone in the dark night  
I think of them that's passed by  
They say to me, "Boy don't you worry,"  
"We gonna see you when the time is right"

We gonna have a party  
We gonna have a show  
And we gonna drink forevermore  
And when I find all my old friends  
Well we're gonna play  
'Til the cows come home

And there gonna be women  
Lined up in a row  
And they're gonna be beautiful  
And ready to go

And they're gonna love me  
And all my friends  
And we're gonna have a party  
Oh don't you know

Y'know what I'm talkin' about  
Here it come

Well I think this life's  
Higly overrated  
And I'm getting ready  
Take my rest you see  
And when I find all my lost friends  
Yeah we're gonna share them memories

And we're gonna have a party  
We gonna have a show  
And we're gonna drink forevermore  
And when I find all my lost friends  
Yeah we're gonna play  
'Til the cows come home

And there gonna be women  
Lined up in a row  
And they're gonna be beautiful  
And ready to go

And they're gonna love me  
And all my friends  
And we're gonna have a party  
Oh don't you know
