Seaway

You left, the coffee's burning
You thought that I was sleeping
When you told me you loved me
You'll slip a note in my jeans
And let me know what you mean in pen
Farewell, I'm leaving soon

All I wanna do
Is nothing with you
In your apartment, on vacation forever
In your apartment

I'll take the subway downtown
We'll slip away, fool around
Let me swim in your thoughts again
We'll write a song no one hears
Bite our lips, fight the tears
So long, farewell, we're leaving
Yeah we're leaving soon
We need this but

All I wanna do
Is nothing with you
In your apartment, on vacation forever
In your apartment, on vacation forever

Flip your hair
I feel you everywhere
Unaware of just what you do
I'm so scared
And loaded with blues
But balanced by you
Flip your hair
I feel you but I'm so scared
And loaded with blues
But balanced by you

All I wanna do
Is a whole lot and nothing with you
In your apartment, on vacation forever
In your apartment, on vacation forever
In your apartment
In your apartment, on vacation forever
