

Waited Forever

Sebadoh

Burn my mind, let's burn some time together

I need the taste of something strange

I won't deny it if you don't deny it

I won't leave here in shame

It's not weak to give in

Taste the bounds of natural rhythm

A willing girl is hard to find

The day you let me in

I killed my only friend

I've ruined everything this time

Dirty boys get hit

I should've waited forever

(I should've known all along)

I should've waited forever

(I let it happen)
