

Future Of Youth

Sebastian Bach

I just can't take it, you know I had enough
Say I should fake it? I say alienate 'em
I try and hide it, my contempt for a shill
Grifter, misleader, on a campaign to kill

Ain't nothin' stand to reason
Ain't nothin' more to say
Tell me don't stoke the fire

Tell me the truth, not a lie
Take me away back to my life
What do we do? End days
Future of youth, a heartbeat away

There's only one side when the one side is hate
Getting on my bad side was the one way you relate
I put my faith into your lie to my face
Won't pledge allegiance to your house of disgrace

Ain't nothin' stand to reason
Ain't nothin' more to say
Tell me don't stoke the fire

Tell me the truth, not a lie
Take me away back to my life
What do we do? End days
Future of youth, a heartbeat away

Ain't nothin' stand to reason
Ain't nothin' more to say
Tell me don't stoke the fire

Tell me the truth, not a lie
Take me away back to my life
What do we do? End days
Future of youth, a heartbeat away (away!)
A heartbeat away
