Make them girls them take the taxi
They'd wet the backseat
Put them all in the hot seat

Hey yo, wine to the grown
What's in the ear run eyes to the ground
Bong style it to roam
Elevate all your gliders, slide it around
Jump on it by ride it around
Right now you bring life to the zone
Don't feel black, white or ya brown
Am I queen, yeah right for the crown

Hey yo, wine to the grown
Hey yo, wine to the grown
Jump on it by ride it around
Ride it around, ride it around
Ride it around, ride it around

Jump on it by ride it around
Jump on it by ride it around
(Watch it!)
Fire!
