

Trapped inside my hair, I'm in repair, I'm almost there

Keep your hands away from me (Your touch alone can kill me)
Fuck the couch, my love, you can have it all, oh
Keep your hands away from me (Your touch alone can kill me)
Your heart just got so cold, where's the notes in your soul?

You know what gets me angry and what ticks me off
Why you drop me off with your pinky up?
Who knows what's on your mind, what you thinkin' of
Girl, you crossed the line, that's the distance of
Who you foolin'? Watch yourself
I'm already your match, I can leave to death
Keep it movin', keep it movin'
Hold on tight to your back

Keep your hands away from me (Your touch alone can kill me)
Fuck the couch, my love, you can have it all, oh
Keep your hands away from me (Your touch alone can kill me)
Fuck the couch, my love, you can have it all, oh

Trapped inside my hair, I'm in repair, I'm almost there
Trapped inside my hair, I'm in repair, I'm almost there
Your touch alone can kill me
Your touch alone can kill me
