

Lose It

Sebastian Mikael

You're here and tryina hold it together,
You wanna let it all let it all for me, ooh
And time is all of the essence
See I wanna waste it all, waste it all on you!
It was silent, no motion
Just right noise but the moment
When I light, light the sparkle
The way you shine, a different person

Love, when you lose it, when you lose yourself to the music
To the rhythm of my beat
When you lose it, when you lose yourself to the music
To the rhythm of my beat

She kept it locked inside,
never thought it would open
But it's pouring out, pouring out for me
Uh baby, you might hide swimming in your ocean,
'Till I'm probably in [?]
It was silent, no motion
Just right noise but the moment
When I light, light the sparkle
The way you shine, a different person

Love, when you lose it, when you lose yourself to the music
To the rhythm of my beat
When you lose it, when you lose yourself to the music
To the rhythm of my beat
