

# Take Me Higher

Sebastian Mikael

I can't sleep, I can't think straight  
I can't see you in the morning  
You come and you leave well I need a reason  
A reason to still believe in love  
See I've been looking for her, left to right  
And in all of the wrong places in sight  
Don't want the same buzz, a quick fix in  
I want the real thing

Take me higher, higher than I've ever been  
Take me further, further than I've ever been  
See I was talking I can see the way  
Now how did I get dropped like this  
Hold you longer, longer than him

To make me believe, open my eyes and  
Show me the real not the illusion  
All I need is a reason  
A reason to still believe in love  
See I've been looking for her, left to right  
And in all of the wrong places in sight  
Don't want the same buzz, a quick fix in  
I want the real thing

Take me higher, higher than I've ever been  
Take me further, further than I've ever been  
See I was talking I can see the way  
Now how did I get dropped like this  
Hold you longer, longer than him

See I may be attracted too long  
But it feels wrong when I'm lying there so long  
And I might feel like I'm running  
But I'm not moving forward  
It's not real, I can't fake my love  
I know what I need

Take me higher, higher than I've ever been  
Take me further, further than I've ever been  
Take me higher, higher than I've ever been  
Take me further, further than I've ever been  
See I was talking I can see the way  
Now how did I get dropped like this  
Hold you longer, longer than him
