

# Time

Sebastian Mikael

(Make it last long)

Ain't she something?  
Sundress on with her hair in a braid  
Something special  
Our connection's more physical  
Level one, spiritual  
And that's just how my heart is wired  
Just let my love fall and love will follow you  
I feel like I got one (I know, I know)  
That I can show mama (You do)  
(She be count that 12 inch ruler) and we'd still be in too deep  
But not on the wrong foot  
Baby, just read and received my love

I can spend all day out if you want  
I can take you places, wanna come?  
And I can spend all day until you're down  
'Cause for you, I got time, time, time  
We ain't gotta ever see the sun  
I got everything to turn you on  
We can go all day until you're down  
'Cause for you, I got time, time, time

(Is you ready?)  
I'm in the mood, I need your love (Turn the lights off)  
Come a little closer, baby  
(Make it last long) I go long  
She'll be sending pictures to my phone  
Not the ones she post up in her clothes (Yeah)  
Now we getting nasty in my home  
Comfortable in panties with no bra  
She be getting mad when I take too long  
But I gotta let you miss it, its worth more (more)  
Give you a little push, be on the safe side (Word)  
You know I be performing, I don't have stage fright  
I give you head from me, for you in the morning  
Breaking backs, beds, just how you want it  
Let me get off the phone, swerving lanes like a pro  
Open the door, nothing on  
The neighbors peek, give 'em a show  
Yeah, I'm nasty like that  
Just how you like it, don't hold back

I can spend all day out if you want  
I can take you places, wanna come? (I can take you places)  
And I can spend all day until you're down  
'Cause for you, I got time, time, time  
We ain't gotta ever see the sun (We ain't gotta ever)  
I got everything to turn you on (I got everything)  
We can go all day until you're down  
'Cause for you, I got time, time, time  
I can spend all day out if you want  
I can take you places, wanna come?  
And I can spend all day until you're down  
'Cause for you, I got time, time, time  
We ain't gotta ever see the sun

I got everything to turn you on  
We can go all day until you're down  
'Cause for you, I got time, time, time

Is you ready?  
Turn the lights off  
I can take you places  
Make it last long
