## **Tears Of White Roses**

Sebastien

My tears are pouring down Feeling your touch on a crown

Screaming dark after dark Night cries in wolverine bark

Howling is nearer and beast what I'm facing Singin' me lost lullabye

On the cross ... dying in its glory passion Lonely rose ... left in pair of embers As wind blows ... right in gloomy horror fashion

Open the door What I'm looking for

My tears are pouring white My tears are pearls of the night Time goes spinning all around Lost words are buried to the ground

Howling is nearer and beast what I'm facing Singin' me lost lullabye

On the cross ... dying in its glory passion Lonely rose ... left in pair of embers As wind blows ... right in gloomy horror fashion Open the door I need it more and more

On the cross ...
