

# Awake

## Secondhand Serenade

**C** **Am**  
With every appearance by you, blinding my eyes,  
**C**  
I can hardly remember the last time I felt like I do.  
**Am**  
You're an angel disguised.

**F**  
And you're lying real still,  
**G** **Am**  
But your heart beat is fast just like mine.  
**F**  
And the movie's long over,  
**G** **Am**  
That's three that have passed, one more's fine.

**C** **Am** **G**  
Will you stay awake for me?  
**Am** **G** **F**  
I don't wanna miss anything  
**G**  
I don't wanna miss anything  
I will share the air I breathe,  
I'll give you my heart on a string,  
I just don't wanna miss anything.

I'm trying real hard not to shake. I'm biting my tongue,  
But I'm feeling alive and with every breathe that I take,  
I feel like I've won. You're my key to survival.

Taktiez ako bridge  
And if it's a hero you want,  
I can save you. Just stay here.  
Your whispers are priceless.  
Your breathe, it is dear. So please stay near.

Will you stay awake for me?  
I don't wanna miss anything  
I don't wanna miss anything  
I will share the air I breathe,  
I'll give you my heart on a string,  
I just don't wanna miss anything.

**Am** **F** **C** **G**  
Say my name. I just want to hear you.  
**Am** **F** **C** **G**  
Say my name. So I know it's true.  
You're changing me. You're changing me.  
You showed me how to live.  
**F** **G**  
So just say. So just say,

**C** **Am** **G**  
That you'll stay awake for me.  
I don't wanna miss anything.  
I don't wanna miss anything.  
I will share the air I breathe,

I'll give you my heart on a string,  
I just don't wanna miss anything
