

## Tested And True

### Secondhand Serenade

Superstitions aren't meant for lovers  
Under covers, undiscovered is your skin  
I am lonely, please let me in  
You're probably wondering what I was proving  
Are you choosing?  
Am I losing you tonight?  
Is it over, over?

Are we fading?

[Chorus]

I never wanted anything the way that I want you  
But my words don't seem to matter  
My words don't seem to matter  
And you look at me and I can see  
The lies you're running too  
But my words don't seem to matter  
I'd rather have you tested and true

Now you've had your chance  
So let's try my way, it's my day  
To show you what you're missing, turn around  
And feel the winds of change upon your face again  
The warm breath of your closest friend  
I'm waiting, I'm waiting

Are we fading?

[Chorus]

I'm scared we'll fall apart tonight  
Under the moonlight  
Under the moonlight  
I'm scared we'll never make it right  
Under the moonlight  
Under the moonlight  
Take my hand and hold it tight  
Hold it tight

[Chorus]
