

## Just For You [Again]

Secret Discovery

I was in seventh heaven, forgot whats real for you  
I was so blind, the time stood still for me, I didnt  
see any danger in you  
Like a machine you dragged mne into a world, could I  
know ?, so full of disease;  
and you were waiting til I lost my head while Ive been  
waiting  
Just for you

At the same day, at the same time, and again,  
Just for you;  
and again Id jump into the fire, and again,  
Just for you

I see your face in every window, you looks touch ... my  
skin  
In your might, paralyzing me, I feel like a dwarf in a  
circus of sin  
Like a machine you dragged mne into a world, could I  
know ?, so full of disease;  
and you were waiting til I lost my head while Ive been  
waiting  
Just for you

At the same day, at the same time, and again,  
Just for you;  
and again Id jump into the fire, and again,  
Just for you

At the same day, you can believe me, and again,  
Just for you;  
and again Id jump into the fire, and again,  
Just for you
