

Light

Secret Service

Light
When we're heart to heart
No more darkness - only light
The world may fall apart
But we stay heart to heart

If you're blue or left alone
Insecure or on your own
Let me help you through the night
Don't you know there's always

Light
When we're heart to heart
No more darkness - only light
The world may fall apart
But we stay heart to heart

There's no reason to be sad
What we found we'll make it glad
Is it wrong or is it right
I don't know there's always

Light
When we're heart to heart
No more darkness - only light
The world may fall apart
But we stay heart to heart

All the night, all the night
You're my light, you are my light
Shining so bright

Light
When we're heart to heart
No more darkness - only light
The world may fall apart
But we stay heart to heart
