

Idolize Me

Secrets of the Moon

Master of eternal light
Show me your power and your might
I am immortal and I am strong
I never surrender

Can you feel the hate, the pain
The blood in my vein
The love, the cry
The tear in my eye
I never die

Master of eternal light
I bring you to a hateful ride
I free my soul and free my mind
I am a shadow of the darkest kind

Now the magic spell is broken
Like thousand times before
Now the magic spell is broken
My mind can't close the door

Idolize me
A human god I'll be
Idolize me
With hate I spit on thee
