

Comedown

Secrets

Stay another night
So I can have you when I want you
Cut another line
Do something, just get me high, cloud my mind

Looking for a substance to make me feel some more
Make me feel something more

I am always searching for something that can take me
Take me away from reality
Change me from the way I think
Erase my thoughts make my mind blank

Everybody else can see
A side of me I've never seen
They think that I can change
(I have to disagree)
I'm comfortable inside this hole
That's why I dug it after all
I built my own hell
(I'm not coming out)

I built my own hell
(I'm not coming out)

Was it all a dream
I can't figure out
Blame it all on a blackout
Did I make a scene
Was I freaking out
Blame it all on a blackout

Now it's in my veins
I feel the angst
I feel my heart racing
Most would be ashamed
Call me insane
Tell me to face this pain
I won't change
(Believe me)
I can't change

I'm not coming down

I won't change

(Believe me)

I can't change

(Don't let me)

I won't change

(You heard me)

I can't change
