Secrets

I spent 8 years down inside a hole
To convince myself where I was was home (oh no)
But the better part of giving up
Was awoken in you

Mistook comfort for love (for love)
I lost myself and gave the searching up (fuck)
You found me at my worst from there
You got me feeling like brand new

When I'm with you there's a freedom
That I know me and it deepens
Who we are (Who we are)
Who we are (Who we are)
I feel stronger that I know you
Had to break myself just to show you
But it feels so (It feels so)
It feels so (It feels)

Incredible

Getting off my feet was pulling teeth
Losing everything to gain everything (my god)
50 stories down to cold concrete
It was worth it for you

So confused but content (content)
Sick inside but I got over it (oh yeah)
You found me at my worst from there
You got me feeling like brand new

When I'm with you there's a freedom
That I know me and it deepens
Who we are (Who we are)
Who we are (Who we are)
I feel stronger that I know you
Had to break myself just to show you
But it feels so (It feels so)
It feels so (It feels)

Through the pain and all the guilt
You're all I needed to rebuild
We never knew but it was so inevitable
You brought to life inside of me
The man I never thought I'd be
A place I know that I can call incredible

Broken down I was all alone
Stuck in a hell hole I called home
I never thought I could be saved
But then by grace

You found me down in a dark place
Pulled me out of all my old ways
Since then I've never felt anymore shame

When I'm with you there's a freedom
That I know me and it deepens
Who we are
Who we are
I feel stronger that I know you
Had to break myself just to show you
But it feels so (It feels so)
It feels so (It feels)
