

Last Time

Secrets

Hold tight
And brace again for a long night
You'll be forgiven but this isn't the first time
But it's the last time

Oh my God, I've had enough
There's a devil in your blood
And I'm too tired to be your angel

With every sigh, with every bluff
I played the fool, you used me up
You're too far down for me to save now
My wings can't hold you up

Just like the last time
You fucked up and drink up
The last time
It's too much so I'm giving up
Cause I can't keep preaching to your demons

Hold tight
And brace again for a long night
You'll be forgiven but you're living a bold lie
You gotta get a grip
And it's the last time that I'm gonna give a shit
So hold tight
And brace again for a long night
You'll be forgiven but this isn't the first time
You put us out like this
And it's last time that I'm gonna deal with it

So give me peace or I'll become
The dying proof of what you've done
Cause there's no room here for your secrets
Let's pack it up

Just like the last time
You fuck up and drink up
The last time
It's too much so I'm giving up
Cause my life is worth more than your weakness

Hold tight
And brace again for a long night
You'll be forgiven but you're living a bold lie
You gotta get a grip
And it's the last time that I'm gonna give a shit
So hold tight
And brace again for a long night
You'll be forgiven but this isn't the first time
You put us out like this
And it's the last time that I'm gonna deal with it

Hold tight cause this is the last time
Drink up cause this is my last try
Play it out, I'm sick of these goodbyes
Oh why

Hold tight cause this is the last time
Drink up cause this is my last try
Play it out, I'm sick of these goodbyes
Oh why

Hold tight
And brace again for a long night
You'll be forgiven but you're living a bold lie
You gotta get a grip
And it's the last time that I'm gonna give a shit
So hold tight
And brace again for a long night
You'll be forgiven but this isn't the first time
You put us out like this
And it's the last time that I'm gonna deal with it

The last time that I'm gonna deal with it
This is the last time that I'm gonna deal with it
