

# The Collapse

Secrets

Breathe in, fill my lungs with toxin  
I won't stop til they bury my coffin

Lately  
You're all that I've been missin'  
My friend  
The one they call addiction

Give up  
It's not like you can kick this  
Give in  
Until you're submissive

Breathe in, fill my lungs with toxin  
I won't stop til they bury my coffin

It's a feeling that I've never known  
Now I just can't let it go  
Dependency is plaguing me  
Now it's just an awful feeling  
I don't think it's ever gonna set me free  
Set me free

Give in

Again again, I feel withdrawal  
As my eyes roll back I feel my skin start to crawl

Leave me  
Alone with my own thoughts  
And then  
Watch me collapse

And then  
Watch me collapse  
Watch me  
Watch me collapse

It's a feeling that I've never known  
Now I just can't let it go  
Dependency is plaguing me  
Now it's just an awful feeling  
I don't think it's ever gonna set me free  
Set me free

I needed substance for this empty space  
Convince myself it's for my mental state  
How'd I let this gets so far from me  
I let my sickness get the best of me

I'm so done with life  
So when you see me tonight  
Fuck me up fam

Breathe in  
Fill my lungs with toxin  
Breathe in

I am the fucking problem
