

## Listen

Seeb

Will we ever find?  
Listen to my envy, listen to me lie  
Were we left behind?  
Listen to forever, listen for a while

Minor final, shades of darkness  
Common closing, lukewarm excess

We are reaching for the sun but we won't get there  
Will we ever really find or keep on fading?  
We are, we are, we are only human  
Running to the rising sun, we are only human

Only human  
We are only human  
We are only human  
(Human)

Will we ever mind?  
Listen to our beat and listen to our sound  
Do you hear my lie?  
Looking for a shelter, looking for some time

Can love warm us in this darkness?

We are reaching for the sun but we won't get there  
Will we ever really find or keep on fading?  
We are, we are, we are only human  
Running to the rising sun, we are only human

We are only human  
Listen, listen  
We are only human
