

Nice To Meet You

Seeb

In the end when we're saying things we don't mean
Baby, if this road leads to one step from lonely

Promise that you'll remember what I'm sayin', now
If this love doesn't stay around
To keep you up if it all falls down
If we go our separate ways

Promise me that if it all goes wrong and I don't see you
The way I used to see you
Remember that it started off with "Nice to meet you"
If we end this song and I don't treat you
The way I used to treat you
Remember that it started off with "Nice to meet you"

Promise me, promise me
Promise me, promise me
Promise me that, if it all goes wrong, promise me
Promise me, promise me
Promise me, promise me
Promise me, that

In the end when you're finding ways to hate me
And I make you feel crazy, forever callin' me baby
Promise me you'll remember what I'm sayin' now
This love doesn't stay around, to pick you up if it all falls down
If we go, our separate ways, promise me that

If it all goes wrong and I don't see you
The way I used to see you
Remember that it started off with nice to meet you
If we end this song and I don't treat you
The way I used to treat you
Remember that it started off with "Nice to meet you"

Promise me, promise me
Promise me, promise me
Promise me that, if it all goes wrong, promise me
Promise me, promise me
Promise me, promise me
Promise me, that if it all goes wrong and I don't see you
If it all goes wrong and I don't see you
If it all goes wrong and I don't see you
Remember that it started off with "Nice to meet you"
