

Sweet Dreams & Dynamite

Seeb

Nobody tells you that it hurts like a weapon
When you know that it's ending, it's so God damn depressing
And it feels like a car crash, sudden break, feel the glass smash
Slow pain, like a math class, you don't know any answers

Overdosed on your love, guess that I took too much
Coming down, sucker punch, I don't wanna feel it yet
Stick a knife in my back, say it's meant to hurt like that

All I know, this just hurts too much
I don't wanna see you in love
I don't wanna break down and cry
Gonna close the door, cut my feelings off and say goodbye
I don't wanna let my cheeks blush
When I think about you and I
Sweet dreams and dynamite

Tiny explosions, such violent emotions
We were good, we were awesome
We were bottled up and broken

Overdosed on your love, guess that I took too much
Coming down, sucker punch, I don't wanna feel it yet
Stick a knife in my back, say it's meant to hurt like that

All I know, this just hurts too much
I don't wanna see you in love
I don't wanna break down and cry
Gonna close the door, cut my feelings off and say goodbye
I don't wanna let my cheeks blush
When I think about you and I
Sweet dreams and dynamite

(Dreams and dynamite) And dynamite
Sweet dreams and dynamite

Tiny explosions, violent emotions (You and I were)
Sweet dreams and dynamite
Tiny explosions, violent emotions (You and I were)

All I know, this just hurts too much
I don't wanna see you in love
I don't wanna break down and cry
Gonna close the door, cut my feelings off and say goodbye
I don't wanna let my cheeks blush
When I think about you and I
Sweet dreams and dynamite

(Dreams and dynamite) And dynamite
Sweet dreams and dynamite
