

The High

Seeb

You walk me to the edge of my mind, you make me trip sometimes
We trip sometimes, I know we're out of money, but I
I need a hit sometimes, a fix sometimes

I love the high, I love the high that you put in my veins
I love the high, I love the high that you put in my veins
I love the high that you put in my veins
I love the high that you put in my veins (Oh)
I love the high that you put in my veins

You like to hide behind a mask of lies
I see the truth in your eyes, the truth's in your eyes
This is how you choose to survive
But you seduce with your vibe
Seduce me with your vibe

I love the high, I love the high that you put in my veins
I love the high, I love the high that you put in my veins
I love the high that you put in my veins
I love the high that you put in my veins
I love the high that you put in my veins

Now you're done hearing, this shit ain't easy, no (Ooh)
Find myself somewhere just as lucky

Give me your love, one more time, one time
One more time, one time
One more time, one time

(I love the, I love the, I love the high)
I love the high that you put in my veins
(I love the, I love the, I love the high)
I love the high that you put in my veins
I love the high, I love the, I love the, I love the
I love the high, I love the high that you put in my veins
I love the high, I love the, I love the, I love the
I love the high, I love the high that you put in my veins
I love the high that you put in my veins
I love the high that you put in my veins
