

# Would You Lie

Seeb

Not sure there's anything, but painful  
For watching the love of your life move on  
There's anything I can do to change it  
I know you're already too far gone

I don't do it for you anymore  
I don't excite you, not like I used to  
And I guess you're just runnin' out of love  
Oh, I can't blame you, but I gotta ask you

Would you lie, lie to me tonight?  
Bring me back to summer when your heart was mine  
Oh, would you lie, lie just for the night?  
Make it feel like where I'm running out of time

Would you lie?  
Would you lie?  
Would you lie?  
Would you lie?  
Would you lie?

Would you lie?  
Would you lie?

The hardest part is I still love you  
And God knows there's nowhere to change your mind  
Oh, oh, ooh  
I've played a million times over  
I still don't know how could I be so blind

I don't do it for you anymore  
I don't excite you, not like I used to  
And I guess you're just runnin' out of love  
Oh, I can't blame you, but I gotta ask you

Would you lie, lie to me tonight?  
Bring me back to summer when your heart was mine  
Oh, would you lie, lie just for the night?  
Make it feel like where I'm running out of time

Would you lie?  
Would you lie?  
Would you lie?  
Would you lie?  
Would you lie?

Would you lie?  
Would you lie?

Lie, lie to me tonight?  
Bring me back to summer when your heart was mine  
Oh, would you lie, lie just for the night?  
Make it feel like where I'm running out of time
