We sing a song for all the bad minded people Half of your heart might be ruled by the evil Still you look for some love in some way You are afraid, hear what we say Put the spot on our treasure The love goddess, the queen of pleasure Even odd is her measure A heavy shock cold and hot She is like the weather Do not block, better rock Show what you adore Take what you've got Break on through the door You cannot find more Than what you look for Her love shot, increases the score Love is unkind if you step outta line She's a cold, she's a warm hearted mother-a-a Love is divine if you enter right in time You better check it next time Put the spot 'pon the queen We want her, she's so hot True love goes from one to another Get, shot her arrow, choose I to play inna drama Six kids now call me father For every coin there's a slot You miss it once, twice or more Then you think you had your lot Queen is known to be moody Try again till you got through to her Then she'll say, "go on your way Now that's all" Well, at least you have been heard Love is unkind if you step outta line She's a cold, she's a warm hearted mother-a-a Love is divine if you enter right in time You better check it next time You get hot Another trophy that I'm taking home You've had a lot Can I ever please her majesty? You pick a loss Had to feel it, yes, she let me know It's not all that has a sparkle that is gold Hotter than hot Love is our treasure We have a lot But we've got to pass it over Don't interrupt So come let's go and spread it out And you'll see, we can please her over time Love is unkind if you step outta line She's a cold, she's a warm hearted mother-a-a Love is divine if you enter right in time You better check it next time Tištěno z pisnicky-akordy.cz
