Because of Me

Here she comes again She's feeling like she's already won I believe it's gonna end again, all for naught My philosophy is things are just as wrong as they seem I believe it's gonna end this way, atrocity

Do you believe in love Like I believe in pain? Nobody died for you Somebody pray for me

When you see me, cut me down And I will force it underground There's no one left to hurt but me And it's because of me, right?

There she walks away She's feeling like she's having them on I believe she's gonna bend again And all for naught My philosophy is things are just as wrong as they seem I've gotta get you off of me, it's such an oddity

Do you believe in love Like I believe in pain? Nobody died for you Somebody pray for me

When you see me, cut me down And I will force it underground There's no one left to hurt but me And it's because of me, right?

I want to see you suffer! Suffer!!

When you see me, cut me down And I will force it underground There's no one left to hurt but me And it's because of me, right?

When you see me, cut me down And when you see me, cut me down And when you see me, cut me down And it's because of me. Suffer!!
