

Fur Cue

Seether

It's all too revealing
Your words are deceiving
I can't let you get in my way
I sense all your actions are meant as distractions
You must know I won't play your game
Fake, you're more than I can take
And something's gonna break
Get out of my head
No shame, you're passing all the blame
And nothing's gonna change
Get out of my head

You made me realize that it's all a lie
And it comes as no surprise
Stay for awhile
Stay 'cause you make me smile
There's no compromise

I'm sick of pretending
The thoughts are unending
I can't let you get in my way (there's no way home)
I'm no longer bending
My mind set is mending
And now I have something to say (deny me)
Fake, you're more than I can take
And something's gonna break
Get out of my head
No shame, you're passing all the blame
And something's gonna change
Get out of my head

You made me realize that it's all a lie
And it comes as no surprise
Stay for awhile
Stay 'cause you make me smile
There's no compromise

Fake, you're more than I can take
And something's gonna break
Get out of my head
Shame, you're passing all the blame
And nothing's gonna change
Get out of my head

You made me realize that it's all a lie
And it comes as no surprise
Stay for awhile
Stay 'cause you make me smile
I see no compromise

Stay for awhile
Stay 'cause you make me smile
I see no compromise
Stay for awhile
Stay 'cause you make me smile
There's no compromise
