

# Suffer It All

Seether

Mass inclination will full my frustration  
And keep all redemption at bay  
All indications prove your all mutations  
And you all have nothing to say

Hate  
Down on me  
Break  
Down on me  
Slave  
Down on me  
Plague  
Down on me

I can't believe everything you believe perceive  
Is rightfully coming your way

Take me back to where I need to go (Inside me)  
Show me how to question all I know (Excite me)  
You come around (And reveal yourself)  
You come down (In this best education)  
I'll fall down (As we kill ourselves)  
When it all goes down (Are you ready to suffer it all?)

My aggravation is manifestation  
Of all of the shit that you say  
This complication will lead to this damnation  
Of all of those stand in my way

Hate  
Down on me  
Break  
Down on me  
Slave  
Down on me  
Plague  
Down on me

I can't believe everything you believe perceive  
Is rightfully coming your way

Take me back to where I need to go (Inside me)

I'll be ready to suffer it all  
I'll be ready to suffer it all
