Luci

Sega Bodega

We had it all, all we wanted was a soul
Run forever just to stay away from being cold tonight
Sit here obsessing on my throne
Are you sleeping better on your own? I don't wanna be alone
We had it all, all we wanted was a soul
Run forever just to stay away from being cold tonight
Sit here obsessing on my throne
Are you sleeping better on your own? I don't wanna be alone

Take my jumper, Luci
I'm blinded by your beauty
Take my jumper, Luci
I'm blinded by your beauty
I'm blinded by your beauty

(Sit here obsessing on my throne
Are you sleeping better on your own? I don't wanna be alone)

(I don't wanna be, I don't wanna be, I don't wanna be, I don't wanna be)
I'm blinded by your beauty (I don't wanna be)

Take my jumper, Luci
I'm blinded by your beauty

Just think about what you're saying
Talk in the morning, not under the stars
Swear that I just saw you praying
Promise it's not gonna get you real far
