

You know I'm no brando  
Stitched together tight though  
Hold me close like Lilo  
Precious Venus  
Breathless, you're my weakness  
Say I'm sane

When you pull me deeper, we're like minded  
Closely tied  
Tell me when I'm nearer that  
You'll be here for a while

Maybe this is just another way  
Like I didn't deserve it to be close to you  
What was I hoping for?  
Maybe this is just another day  
And I can lean towards the feeling  
That you gave me when our time ran out  
When there was time at all

Luci, Persephone  
Devil whisper to me  
Sell my soul you're still my honey  
Mummy mummy, she thinks I'm funny  
Say I'm sane

When you pull me deeper, we're like minded  
Closely tied  
Tell me when I'm nearer that  
You'll be here for a while

Maybe this is just another way  
Like I didn't deserve it to be close to you  
What was I hoping for?  
Maybe this is just another day  
And I can lean towards the feeling  
That you gave me when our time ran out  
When there was time at all
