

## Requiem

Sega Bodega

Fever follows where you go  
Lazy, hazy, symptoms show  
Ripple all up in my skin  
I got that subtle blow  
You make your presence felt  
Feelings I don't wanna know  
Creeping over everything  
I just needed to say no

Ripple all up in my skin  
You make your presence felt  
Creeping over everything  
I just needed to say no
