

# Romeo

Sega Bodega

Early in the morning  
You tell me it's through  
Early in the morning  
Gone without a warning  
You left me feeling blue  
Early in the morning  
Tears come with the mourning  
I never knew it wasn't true  
Early in the morning  
Early in the morning  
You tell me it's through  
Early in the morning

Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you  
Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you

Early in the morning  
You found someone knew  
Early in the morning  
He comes with a warning  
But so do you, it's sad but true  
Early in the morning  
Early in the morning  
I think it through, I feel brand new  
Early in the morning  
Early in the morning  
I never knew it could be true  
Early in the morning

Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you  
Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you

Dissolve, disown  
Far from a further fall  
Dissolve, disown  
Far from a further fall

Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you  
Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you

Past life Romeo  
Take my love and come home to me  
Won't be alone with me  
And let me love you
