Sega Bodega

Little angel hold me  
Keep it true  
Little angel told me  
What to do

Of all the sins and things I'd never do  
I only feel for you it's all there is and oh my  
God I feel my heart is gonna break  
I cannot promise you a single thing but I'll try  
'Fore you up and flew away

Little angel hold me  
Keep it true  
Little angel told me  
What to do  
Of all the sins and things I'd never do

Bring you to the orchard where we snack in extremes  
Apples are for those who wanna dream  
Taste what you could have if you chose never to wake  
'Fore you up and flew away  
Opened my eyes to the words "Do not be afraid"  
Something that I hear now everyday  
Tell me was that everything you wanted to say  
'Fore you up and flew away

Little angel hold me  
Keep it true  
Little angel told me  
What to do  
Little angel hold me  
Keep it true  
Little angel told me  
What to do  
What to do
