

BEFORE

Seinabo Sey

I want someone I adore
Someone who makes me feel sure
I got a problem I always want more
I wish it was like before

Before, before you
Before, before I knew
What boys can do to you
I, I want it to feel like before

I used to feel young, but now I'm old
People used to say
I really like how you roll
But now it's September and I have a cold
Looked for a shirt and it was sold-out

I want someone I adore
Someone who makes me feel sure
I got a problem; I always want more
I want it to feel like before

Before, before you
Before, before I knew
What boys can do to you
I, I want it to feel like before

I, I, I
I just want it to feel, to feel
What boys can do to you

I want it to feel like before
I want it to feel like before
