

# Breathe

Seinabo Sey

I love it here 'cause I don't have to explain to them  
Why I'm beautiful, 'cause I am beautiful  
And back home they're scared  
Oh so scared of me  
But i became scared of me  
I become scared of me

The way you smile when you believe in it, in your future  
It's different, it's different  
The way you smile when you believe in it, in your future  
It's different, it's different

Now we moving forward, ever backwards  
Never forward, ever backwards, never  
And when the going gets rough and life gets tough  
Don't forget to breathe

I love it here 'cause I don't have to explain to them  
Why I'm valuable, that I'm magical  
And back home they tear, tear my soul apart  
Love my broken heart, I don't know where to start

The way you smile when you believe in it, in your future  
It's different, it's different

Now we moving forward, ever backwards  
Never forward, ever backwards, never  
And when the going gets rough and life gets tough  
Don't forget to breathe

Surely I did not go through all of this for nothing  
Yeah nothing's such a beautiful word, eh see  
Baby surely did not go through all of this here for nothing  
Yeah nothing's such a beautiful word  
'Cause nothing can be loved into something  
Nothing can be loved into something  
(To something, to something)  
Nothing can be loved into something  
(To something, to something)

Now we moving forward, ever backwards  
Never forward, ever backwards, never  
And when the going gets rough and life gets tough  
Don't forget to breathe
