

EVERYTHING

Seinabo Sey

I have questioned everything
Now I'm at the beginning
I have wondered who I am
See I
I have given everything

Ey see

Know you didn't ask this of me
Yes, I did it all willingly
Ponder over choices
But listen to the voices

There was a place where you were safe once
Do you remember
There was a time when we felt
We felt, we felt like one
There was a place where you were safe once
Do you remember
There was a time when we felt
We felt, we felt like one

I have touched these many times
Skies that open, truthful eyes
(Champion lover for life, if I can't have you nobody can)
Tell me who you want to be
All will calm down, stay with me

Know you did not ask this of me
Yes, I did this all willingly
Ponder over choices
But listen to the voices

There was a place where you were safe once
Do you remember
There was a time when we felt
We felt, we felt like one
There was a place where you were safe once
Do you remember
There was a time when we felt
We felt, we felt like one
Champion lover for life
If I can't have you nobody can
Champion lover for life
Walk like a champion
