

Sunshine
Say you will stay if I just take a break from living the high life
We got
Good times
Say you will stay
If I told you to leave even if I don't play right

Yeah someone's it feels
You make me feel like
Someone who's about to loose it all
Yeah when things get real
When things get real I
Do my best to make them fall apart

Hey baby I'm all yours to take
But I'm scared to come your way
Feel you safe inside my arms
Wanna love but I'm afraid

Hey don't believe but still I pray
Wanna love but still I wait
Know I have to risk it all
Wanna love but I'm afraid

Starlight, baby we flyin just like two flies
We keep chasing that limelight
But will you stick around
When we're not living that Rom-Com-Goodlife
Moonlight yeah, if I wasn't this smart
I would follow my heart
But I keep trustin my dumb mind
Wanna love but I'm afraid

Hey baby I'm all yours to take
But I'm scared to come your way
Feel you safe inside my arms
Wanna love but I'm afraid
Hey don't believe but still I pray
Wanna love but still I wait
Know I have to risk it all
Wanna love but I'm afraid

Hey baby I'm all yours to take
But I'm scared to come your way
Feel you safe inside my arms
Wanna love but I'm afraid
Hey don't believe but still I pray
Wanna love but still I wait
Know I have to risk it all
Wanna love but I'm afraid
