

Fangs

SEKAI NO OWARI

You're a good girl
A misunderstood girl
But it's all a masquerade
Everybody's on parade
I'm a bad boy
Nothing but a sad boy
I don't wanna start a fight
But the moon is out tonight

Get ready, set, go draw your sword
Be careful what you looking for you'll see the shield
Savage on a battlefield
You think you got nothing to lose
But understand that either way you do or die
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't wanna hurt somebody
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't wanna hurt somebody
Can't hide my fangs

Can't hide my fangs
Can't hide my

In the darkness
Everybody's heartless
A devil's game inside your head
While the angels go to bed
But the madness
Doesn't make us savage
We'll go dancing through the night
When the rival spider bites

Get ready, set, go draw your sword
Be careful what you looking for you'll see the shield
Savage on a battlefield
You think you got nothing to lose
But understand that either way you do or die
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't wanna hurt somebody
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't wanna hurt somebody
Can't hide my fangs

Can't hid my fangs
Can't hid my

Get ready, set, go draw your sword
Be careful what you looking for you'll see the shield
Savage on a battlefield
You think you got nothing lose
But understand that either way you do or die
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't wanna hurt somebody
Can't hide my fangs

I don't wanna hurt somebody
But I'm gonna hurt somebody
I don't want hurt somebody
Can't hide my fangs
