

## Direction

Selah Sue

I fade away, my love  
And darkness is starting to grow  
Forever joy, I hope that I  
Will find direction, find direction  
A way to go  
A way to go  
Find direction

What's my direction  
I need to know for now  
Is my direction in the gleaming stars above  
What's my direction

I know that I have chosen right from wrong  
In no time I'll get back close to you  
Yes, this is more than a fleeting sensation  
I'll get through this love until the end  
So much to do, so much to see  
So much to say, so much to love  
My direction

What's my direction  
I need to know for now  
Is my direction in the gleaming stars above  
What's my direction [x3]
