

Stand Back

Selah Sue

All I want is this town of need
Is time to trash our bliss
All I need is to focus on my mind
To get stronger

Emptiness will always get you back
Maybe more than you'll ever know
Gotta know life won't always be this way

Don't you feel it's falling down?
Stand back, stand back
Before the wailing goes away
Don't you see this final round?
Stand back, stand back
Before the wailing goes away

All I want, all I want from you
Is to get what I'm saying, just think about it
All you choose, all you need is some purpose in your life
And get while I say, so just listen
It's all for you

Emptiness will always get you back
Maybe more than you'll ever know
Gotta know life won't always be this way

Don't you feel it's falling down?
Stand back, stand back
Before the wailing goes away
Don't you see this final round?
Stand back, stand back
Before the wailing goes away
Cause I have written this words in your time of need
I don't want this tragic, this tragic to get its hold on you
I don't believe in magic, but we have to just make it through

Don't you feel it's falling down?
Stand back, stand back
Before the wailing goes away
Don't you see this final round?
Stand back, stand back
Before the wailing goes away

Stand back, trust your heart
Stand back, trust your heart
Stand back, trust your heart
