

# Always Gonna Be

Selah

There's always gonna be  
A valley full of shadows  
Lonely nights when we  
Have tears we need to cry  
There's always gonna be  
Some prayers that seem unanswered  
Moments you and me  
Got a thousand questions why

But there's always gonna be  
A light that keeps on shining  
There's always gonna be  
A hope that keeps us strong  
We always will believe  
There's a love that will not leave us  
So there's always gonna be  
The joy to journey on

There's always gonna be  
Some days the cupboard's empty  
The path is hard to see  
Through worries and through doubt  
Always gonna be  
Some nights when it's hard sleeping  
Back down upon our knees  
With dreams that don't work out

But there's always gonna be  
A light that keeps on shining  
There's always gonna be  
A hope that keeps us strong  
We always will believe  
In a love that will not leave us  
So there's always gonna be  
The joy to journey on  
Gonna journey on

There's always gonna be  
Some skeptics and some doubters  
Stones they throw and we  
Would rather run and hide  
Always gonna be  
Times our hearts are breaking  
When songs are in the key  
Of sorrow and goodbye

But there's always gonna be  
A light that keeps on shining  
There's always gonna be  
A hope that keeps us strong  
We always will believe  
In a love that will not leave us  
So there's always gonna be  
The joy to journey on

There's always gonna be  
The power of resurrection

There's always gonna be  
New mercies with the dawn  
With truth that sets us free  
And the sweetness of His presence  
There's always gonna be  
The joy to journey on  
The joy to journey on  
Always gonna be  
Just journey on  
Gonna journey on
