

Off The Chain

Selena Gomez

Twisted, you've shaken my existence
When I'm with you, baby
Bliss is all I've come to know

Running, I didn't see it coming
Blinded, it's so stunning
I don't wanna let you go

[Chorus]

A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain

The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain

Your love
Your love
Your love

Your love
Your love
Your love

Coming
Just keep the magic coming
You got me baby
Crushing
But it feels like so much more

Just when
When I least expect it
You make it feel so epic
Like nothing I felt before

[Chorus]

A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain

The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain

Your love
Your love
Your love

Your love
Your love
Your love

I'm not the type who gets crazy for someone
All to me, tripping on like next to nothing (???)
Guard my heart like a diamond ring
But love, your love changes everything

Everything has changed
Everything has changed
Everything has changed
Your love is off the chain

Everything has changed
Everything has changed
Everything has changed
Your love is off the chain

[Chorus]
A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain

The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain

Your love
Your love
Your love

Your love
Your love
Your love

Off the chain
