

Broken Generation

Self Deception

We are the lost the open minded
As bought as we are blinded
Stars in the show of fuelling the elite

Will it ever change
Can we be brave
Or is this a game
Meant to be played
All I know is nothing's what it seems

We are the broken generation only living for today
Owned by the corporations
With a price tag on our name
We are the broken generation
Yeah that is what they all say
We'll be the downfall of this nation
If we don't start to make a change

We don't believe in speaking our mind
Supposed to be the peak of mankind
Will history ever know our names

Will it ever change
Can we be brave
Or is this a game
Meant to be played
All I know is nothing's what it seems

We are the broken generation only living for today
Owned by the corporations
With a price tag on our name
We are the broken generation
Yeah that is what they all say
We'll be the downfall of this nation
If we don't start to make a change

Will they ever know our names
Will they ever know our names
Will they ever know
Will they ever know

We are the broken generation only living for today
Owned by the corporations
With a price tag on our name
We are the broken generation
Yeah that is what they all say
We'll be the downfall of this nation
If we don't start to make a change

Will they ever know our names
Will they ever know
Will they ever know
