Delusion

Self Deception

Is anybody out there?
Can anybody hear me?
Can anybody see me?
Just breath

Is anybody out there?
Can anybody hear me?
Can anybody see me?
Just breath

So cold down here I'm a prisoner
My lips are going numb
For no stupid reason

Hands are shaking, I'm loosing my voice

Holding on so tightly to an answer, not get questioned
I can see how my breath fucked up the glass

Shut off the headlights, kill that switch
My hearth keeps beating, so fast

Shut off, shut off the headlights, kill that switch!
My hearth keeps beating, So fast! So fast!

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath

1, 2, 3
I see your tragedy hanging over me
See I know that I just must be dreaming but it feels so real
Ohhhhh

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath

I see your tragedy hanging over me
See I know that I just must be dreaming but it feels so real
Woooaaaaah!

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath

Is anybody out there?
(Is anybody inside)
Can anybody hear me?
(Scream I can't hear you)
Can anybody see me?
Just breath, Just breath
