

# Hayley's Lullaby

Self Deception

Here we are, you and me and my guitar  
Let's write a pretty lullaby so you can fall asleep at night  
While I'm out in the world making people smile  
Tomorrow I'll be on a flight  
Let's save this moment you and I in a pretty lullaby

Don't you grow until I'm nearby  
On the phone it doesn't feel right  
I don't want to miss it

Even on the worst day just looking at your face  
Is all it takes to cancel out any pain I know  
Life can throw anything  
At me, I'm not backing, I'll keep you safe  
No matter what I will follow, follow through

Terrified, the second you arrived  
But then you held my finger tight  
Your little smile destroyed everything bad I had inside  
Now you be good tonight  
Will you sing your lullaby  
When mama carries everything and I stand in the lights

Don't you grow until I'm nearby  
On the phone it doesn't feel right  
I don't want to miss it

Even on the worst day just looking at your face  
Is all it takes to cancel out any pain I know  
Life can throw anything  
At me, I'm not backing, I'll keep you safe  
No matter what I will follow, follow through

Maybe one day we'll all be singing  
Your lullaby, your lullaby  
And music boxes everywhere be playing  
Your lullaby, Hayley's lullaby

Even on the worst day just looking at your face  
Is all it takes to cancel out any pain I know  
Life can throw anything  
At me, I'm not backing, I'll keep you safe  
No matter what I will follow, follow through  
Life can throw anything  
No matter what, I will follow through

Here we are, you and me and my guitar  
Let's write a pretty lullaby so you can fall asleep
