

Legends

Self Deception

Every street is empty
Fear has settled in
Days like this, they will be told

So man your battle stations
Here's where it all begins
And it's the walk through hell

That turns heroes into legends, the writing on the wall
Heroes into legends when carrying us all
It turns heroes into legends, the writing on the wall
Heroes into legends when carrying us all
Cause they run into danger, into the flames they go
It turns heroes into legends, into legends, into legends

Where's the silver lining
When the panic spreads
And the push comes to shove

Here it comes
So man your battle stations
Here's where it all begins
It's the walk through hell

That turns heroes into legends, the writing on the wall
Heroes into legends when carrying us all
Cause they run into danger, into the flames they go
It turns heroes into legends, into legends, into legends
(Into legends, into legends)

"Let's go!"
Here it comes!

(Heroes into legends)
It turns heroes into legends, the writing on the wall
Heroes into legends when carrying us all
Cause they run into danger, into the flames they go
It turns heroes into legends, into legends, into legends
(Into legends, into legends)
Into legends
