

Over The Threshold

Self Deception

Self deception's been around for a while
Working hard with our expressive style
Not corrupted by the music-scene fuck it we'll do our thing
Radio put us on hold cause the major label's in control
We won't sell out no not today
As we won't let nobody get in our way

You can try to take away what we have
You can bury us in the sand
We will still be heard we will still be heard
You can drag us through dirt
You can ruin our concerts
You can tell us that we're small but we will still stand tall

Our friends and fans will always stay
Rocking out everywhere we play
We won't give in and neither will they
(Yeah!)

Radio put us on hold cause the major label's in control
We won't sell out no not today
As we won't let nobody get in our way

You can try to take away what we have
You can bury us in the sand
We will still be heard we will still be heard
You can drag us through dirt
You can ruin our concerts
You can tell us that we're small but we will still stand tall

Ok listen up everybody from the front to the back sing with me
We will be heard we will be heard
Everyone from the left to the right let's world know tonight
We will be heard we will

You can try to take away what we have
You can bury us in the sand
We will still be heard we will still be heard
You can drag us through dirt
You can ruin our concerts
You can tell us that we're small but we will still stand tall
You can try to take away what we have
You can bury us in the sand
We will still be heard we will still be heard
You can drag us through dirt
You can ruin our concerts
You can tell us that we're small but we will still stand tall
