

# TicToc

## Self Deception

We drag ourselves like a chain behind a truck  
And watch sparks coming up from under us  
Cause all we need is a little bang for our buck  
Clock is ticking - tic-tic-tic-tic-toc  
And here we are stumbling through the gate  
Like a snake we are eating our own tail  
We are the black leaves just released  
We are the black leaves don't you see it?

The clock tics - tic-tic-toc-tic-toc, the clock tics - tic

Go and have another glass now  
And drink it till you pass out  
Time is almost up now - buckle up, buckle up, brace for impact  
Oh, it's a hard pill to swallow  
When you're living in denial  
Time is almost up now - buckle up, buckle up, brace for impact

Oh, we just take, no, we don't borrow  
Fall asleep and expect a new tomorrow  
Hit the gas and we don't stop  
Clock is ticking - tic-tickeli-ticki-tic-toc  
And here we are stumbling through the gate  
Like a snake we are eating our own tail  
We are the black leaves just released  
We are the black leaves don't you see it?

The clock tics - tic-tic-toc-tic-toc, the clock tics - tic

Go and have another glass now  
And drink it till you pass out  
Time is almost up now - buckle up, buckle up, brace for impact  
Oh, it's a hard pill to swallow  
When you're living in denial  
Time is almost up now - buckle up, buckle up, brace for impact

Brace for impact  
Tic-toc, get the fuck out the way  
Tic-toc, it's gonna burn

The clock tics - tic-tic-toc-tic-toc

Go and have another glass now  
And drink it till you pass out  
Time is almost up now - buckle up, buckle up, brace for impact  
Oh, it's a hard pill to swallow  
When you're living in denial  
Time is almost up now - buckle up, buckle up, brace for impact

Wo-oh-oh, we're at the end of the sick show  
Wo-oh-oh-oh, buckle up, buckle up, brace for impact  
Oh, it's a hard pill to swallow  
When you're living in denial  
Time is almost up now - buckle up, buckle up, brace for impact
